

STREAM POWER 4T

Semi-Synthetic 4-stroke Motorcycle Oil

Product Description:

STREAM POWER 4T is a high quality semi-synthetic lubricant especially developed for use in high powered 4-stroke motorcycles. STREAM POWER 4T is formulated from premium quality mineral- and synthetic base stocks and high quality performance additives to satisfy the demanding lubrication requirements of modern 4-stroke motorcycles.

STREAM POWER 4T provides excellent protection towards engine, gearbox and wet clutches used in 4-stroke motorcycles and ensures the highest possible reliability even under the most severe operation conditions.

STREAM POWER 4T has very good thermo-oxidative stability, minimising deposits and sludge formation. Exceptional anti-wear properties protect vital engine- and gear components leading to lower maintenance costs. Controlled frictional properties eliminate clutch slippage, effectively improving the driveability of the vehicle. The good low temperature properties enable easy starting at low ambient temperatures and ensures effective lubrication and wear protection at start up.

STREAM POWER 4T is recommended for a wide range of high powered 4-stroke motorcycles. STREAM POWER 4T exceeds the specifications of API SL and JASO MA as well the requirements of many global 4-stroke motorcycle manufacturers.

Specifications:		
Exceeds: API SL, JASO MA		
Property:	Test Method:	Typical Values:
SAE Viscosity Grade	J300	10W-40
Kinematic Viscosity @ 40°C	ASTM D7042	99 mm ² /s
Kinematic Viscosity @ 100°C	ASTM D7042	14.9 mm ² /s
Viscosity Index	ASTM D2270	160
Density @ 15°C	ASTM D4052	872 kg/m ³
Flash Point (COC)	ASTM D92	230°C
Pour Point	ASTM D97	-33°C
Total Base Number	ASTM D2896	7.8 mg KOH/g
Sulphated Ash	ASTM D874	0.96 wt%
