

## ATF POWER DX II

### Automatic Transmission Fluid

#### Product Description:

ATF POWER DX II is a fluid for automatic transmissions in older vehicles specifying the use of DEXRON® II quality fluids. High quality base oils and special additives provides resistance towards oxidation, provides and shows improved frictional properties.

ATF POWER DX II exceeds the performance requirements of General Motors DEXRON® II D and provides excellent shifting behaviour under all conditions.

ATF POWER DX II has good thermo-oxidative stability preventing the formation of undesirable deposits. The high viscosity index ensures adequate lubrication under all circumstances, while the excellent foam control leads to a long lasting, smooth shifting.

ATF POWER DX II is recommended for all vehicles of General Motors requiring DEXRON®-IID quality fluids and is also recommended for certain power steering units, certain manual transmissions and hydraulic systems where such fluids are required.

<b>Specifications:</b>		
Exceeds: General Motors DEXRON®IID		
<b>Property:</b>	<b>Test Method:</b>	<b>Typical Values:</b>
Kinematic Viscosity @ 40°C	ASTM D7042	37.3 mm <sup>2</sup> /s
Kinematic Viscosity @ 100°C	ASTM D7042	7.2 mm <sup>2</sup> /s
Brookfield Viscosity @ -40°C	ASTM D2983	<50000 cP
Viscosity Index	ASTM D2270	160
Density @ 15°C	ASTM D4052	860 kg/m <sup>3</sup>
Flash Point (COC)	ASTM D92	>170°C
Pour Point	ASTM D97	-39°C
